**AT200 TOW | Electric  
Tow**

The AT200 TOW is perfect for safely towing loads where weight transfer is not possible, up to 2,000 kg. Attaching to any load with a draw bar, towing eye or ball hitch fitting is easy thanks to the coupling crawl function. This allows the operator to move the machine slowly and connect simultaneously. Controlled start acceleration gets the load moving safely and power steering provides effortless manoeuvrability.

\*"Maximum load weight" is only a recommendation that we arrive at by estimating rolling resistance. Your environment and wheel type may affect this figure which is why we carry out a detailed technical evaluation on every project. All of our calculations include a "safe work load" factor to ensure safe operation in all circumstances.
