

**MasterMover®**

Worldwide Electric Tug Solutions

**SM100**

# Smart Mover®

**SmartMover® SM100 |  
Battery Powered Tug**

For superior control and total ease of use, the SM100 is a great choice for single pedestrian operators when moving wheeled loads of up to 1,000 kg. Compact yet still powerful, users simply pull a lever to activate a secure connection for peace-of-mind on slopes and in congested areas. It's the safer alternative to manual handling of heavy loads.

## Industries

Suitable for use in a wide range of applications and sectors

Healthcare

Manufacturing and Assembly

Retail and Logistics

## KeyBenefits

1 year full guarantee

- Versatile and flexible – easily push, pull and steer wheeled loads of up to 1,000 kg
- Works on slopes and in congested areas
- User-friendly operation
- Fast and slow speed settings for complete control
- Quality build assured with all steel covers

## ProductDimensions

Anti-crush button

## MaxLoadWeight

See our website for full technical details

Castors

Moves up to 1,000 kg\*

Rails

Moves up to 4,000 kg\*

\*"Maximum load weight" is only a recommendation that we arrive at by estimating rolling resistance. Your environment and wheel type may affect this figure which is why we carry out a detailed technical evaluation on every project. All of our calculations include a "safe work load" factor to ensure safe operation in all circumstances.

**Performance data**

Product code	SM100
Recommended max load	1000 kg
Pull force	981 N
Push force	981 N
Chassis	All steel powder coated
Machine weight including battery	70 kg
Variable machine speed	0.1 km/h - 5 km/h
Drive motor power	2 x 0.22 kW
Drive wheel type	Puncture-proof, non-marking
Parking brake	Electromagnetic
Ingress Protection	IP42
Noise level	≤ 80 dBA
Operating temperature	-15 to 40 °C

**Battery data**

How long does the battery last	9.3 km
Recharging times	4 hr 30 mins
Charger	External 5A 24V - 85V-265V
